I turn complexity into clarity, and build the teams, systems and stories that make it repeatable.

PROFILE	Twenty years directing design and turning complex briefs into clear digital products, from Condé Nast's global media brands to independent ventures in data visualisation and e-commerce. I build design capability from zero, lead multidisciplinary teams under pressure, and translate business strategy into visual systems that perform. At S Moda I was directing and retouching at the same time: that finishing craft is what lets me close a generated image today rather than settle for it.	
EXPERIENCE	Independent Design Consultant	MAR 2026 — PRESENT
	Freelance · Madrid	
	- UX/UI design and web development lead for IBMot, a Mallorca-based dealership network: rental, sales, workshop and touring brought together into one SaaS product with a public site, a back office and a financial dashboard (ibmotexperience.com). In creative partnership with art director and photographer Javier Garceche. - Conceived, designed and shipped an independent data-visualisation project mapping forty-four years of political corruption in Spain, built on the visual language of Minard's 1869 Carte Figurative and Tufte's data-ink principles.	
	2 platforms shipped · 32 cases mapped · 44 años of data visualised · 8.697 M€ volume tracked	
	Strategic Design Consultant	NOV 2025 — FEB 2026
	Grupo PRISA	
	- Designed and produced Grupo PRISA's 2026–2029 strategic plan presentation, delivered to executive leadership. - Synthesised complex business strategy into a clear visual narrative within a tight engagement window.
